INDEX JANUARY 1992 TO DECEMBER 1992

AEROSOL CAN RECYCLING

Aerosol cans can be recycled, p. 7
Aerosol can recycling spreads, p. 30
More communities add empty aerosol and paint cans to curbside programs, p. 60

ALUMINUM CAN RECYCLING

Container Recovery Corp. opens new plant to process aluminum cans, p. 6
Anheuser-Busch recycles 100% of aluminum cans it uses, p. 22
Aluminum can recycling rate for 1991 drops—the first in six years, p. 30
Pricing for used aluminum beverage cans holding steady, p. 52
Aluminum can recycling up this year, p. 60

ALUMINUM FOIL RECYCLING

Reynolds expands foil recycling test program to 60 markets, p. 12
Aluminum foil recycling—a growth market, p. 85

AUSTRIA

Fehr AG is now promoting their technology to produce fiber from textile wastes, p. 16
Austrian ordinance that would have banned PVC turned down by the Minister of Industry, p. 31
900,000 tonnes of plastic were consumed in Austria and about 500,000 tonnes became waste, p. 80

AUTOMOBILE RECYCLING

BMW automobile recycling now underway in the USA, p. 44

BATTERY RECYCLING

Manufacturers of rechargeable batteries form new trade association, p. 61

BELGIUM

Plastic recycling companies recycling 30% of total plastic wastes, p. 24
Eastman Chemical and Cabot Plastics Belgium S.A. have agreed to recycle "Kodak" PETG copolyester, p. 31
A sound barrier wall made from mixed plastics has been constructed by Ekol NV for Exxon Chemical International's polyethylene plant, p. 56
Belgium Recycling Co. NV produces plastic lumber from 4 million pounds per year of mixed plastic waste, p. 79
A 10,000 ton-per-year dry anaerobic composting plant was started up in Brecht, p. 95

BIOBASED MATERIAL RECYCLING

A new technology demonstration plant established to produce and recycle biobased materials, p. 62

CARTRIDGE RECYCLING

Closed-loop recycling of toner cartridges, p. 78

COMPOSTING

Audubon and P&G team up to learn how much compostable waste is in typical household and commercial solid waste, p. 31
Solid waste composting continues to be an option, p. 94

CORRUGATED BOARD RECYCLING

Stone Container installs new plant to more effectively

recycle old corrugated containers, p. 21
An alternative to non-recyclable wax or poly-coated corrugated board, p. 36
Future OCC prices not linked to recovery rate, p. 92

CURBSIDE COLLECTION

Curbside collection is not a panacea, p. 54
Curbside recycling increases, p. 78

DEGRADABLE PLASTICS

Closed-loop recycling of beverage ring carriers, p. 20
A degradable plastic derived from starchy food wastes, p. 28
Degradable plastics being developed for marine environment, p. 36
Plastics that disappear, p. 65
Recycling of plastic beverage ring carriers grows, p. 91

DENMARK

European Plastic Recycling Co. of Odense plans to produce recycled-content expanded polystyrene, p. 88

DEPOSIT LAWS

Unclaimed bottle deposits in Massachusetts will go to the state, p. 14

ENERGY STUDIES

New study indicates energy savings of plastics in construction industry, p. 21

ENGINEERING PLASTICS RECYCLING

New roofing material from recycled Noryl resin, p. 45
Nylon recycling programs unveiled, p. 84

ENVIRONMENTAL ADVERTISING

FTC releases guidelines for environmental advertising, p. 70

EUROPE—GENERAL

Recycling issues dominate K'92, p. 81
The 12 EEC Ministers of the Environment decided to exclude municipal as well as industrial solid wastes from free intra-EEC trade, p. 88
A comprehensive databank on recyclers in Europe has been launched by Fabriplast, p. 88

EUROPE—PLASTICS RECYCLING

McDonalds continues to use polystyrene clam shells, p. 8
Legislation will promote the European market for degradable plastics, p. 24
European oil and petrochemical producers have joined to develop technology that uses plastic waste as a refinery feed, p. 32
Some 10–13 million tonnes of plastic wastes entered the Western European municipal solid waste stream, p. 32
BASF will now sell polyamide and polyacetals with recycled content, p. 48
GE Plastics and Allied-Signal are selling resins in Europe with recycled content, p. 48
Lever Europe to use more than 5,000 tonnes per year of recycled HDPE in their plastic bottles, p. 56
In 1991, 914,000 m.t. of post-consumer plastics were recycled within the European community, p. 64
The European Commission in Brussels has reached agreement on text of directives on packaging

recycling, p. 64

FRANCE—AUTO RECYCLING

Renault of France and BMW of Germany joined forces to recycle cars from both companies, p. 87

FRANCE—GENERAL

In 1989, 41% of municipal solid waste (MSW) in France were incinerated, p. 32
Current national recycling rate statistics published on earth day, p. 39
France now "imports" some 0.5–1.0 million tonnes per year of municipal solid wastes, p. 39
Each year France generates 20 million tonnes of municipal solid wastes, p. 80
Waste Management will be cooperating with SAE Fougere to erect incineration plants, p. 87
The French and German Governments have decided to use the same "Grüne Punkt" markings on packaging, p. 87
Waste Management acquiring 75% of Environnement Service, p. 95

FRANCE—GLASS

France has program to recycle on million tonnes of glass containers, p. 16
Wine producers and their glass bottle suppliers are proposing a more effective collection system for used bottles, p. 79

FRANCE—METAL

Nippon Steel, Weirton, and Sollac found to exchange steel recycling techniques, p. 7
Recycling slags from aluminum foundries, p. 7

FRANCE—PAPER

French manufacturers of corrugated board now producing corrugated containers containing more than 80% recycled content, p. 47
The Finnish UPM paper group will invest \$80 million in drinking facility, p. 95

FRANCE—PLASTICS RECYCLING

Major tube processor uses recycled PVC, p. 7
Farmers association recovering 60,000 tonnes/year of polyethylene film—only some 10,000 tonnes/year have been recycled, p. 16
PSA and Renault have mobile granulator for plastic bumpers, p. 24
Sita joined with Testa Group to produce and distribute composting bins made from plastic wastes, p. 39
CMB is now installing automatic grinders in a chain of gasoline stations to granulate HDPE motor oil cans, p. 87

GERMANY—AUTO RECYCLING

Recycling mixed plastic wastes, plastic automobile gasoline tanks, and other automotive components, p. 8
Opel recycles plastic bumpers and side panels from its used Astra models, p. 40
Volkswagen has focused energy on recycling polypropylene, p. 40
Nissan Motor Co., Ltd. developed technology for recycling polypropylene, p. 40
German automakers are joining in forming nationwide network of authorized, independent vehicle dismantlers, p. 55

A consortium of five German companies has been established to recycle used auto exhaust catalysts, p. 56

Ford Motor Company reduces its use of PVC in cars, p. 87

GERMANY—GENERAL

The green dot system for recovering packaging wastes has a long way to go to meet its recycling targets, p. 63

In the Rhone-Main area wastes destined for disposal were reduced by increasing tipping fees for construction debris, p. 79

GERMANY—METAL

BASF announced significant advances in the recovery of heavy metals from industrial waste waters, p. 32

Aumond demonstrated a sorter capable of identifying a variety of non-ferrous metals, p. 63

GERMANY—PLASTICS RECYCLING

Herbold has taken over Condux, p. 8

Swiss Bell and Co. planning to construct a 20,000 tonnes per year plant to solubilize waste plastics, p. 16

Consortium formed to recycle glass fiber-reinforced thermoset polyesters, p. 23

Krauss-Maffei has produced sound-absorbing pods for autos containing 30% recycled content in a RRIM system, p. 47

Hoechst will install facility to recycle polypropylene by mid-1992, p. 48

Ecoplast plans to construct plant to recycle post-consumer polystyrene, p. 48

Nordische Betreiber has opened plant to recycle foamed polystyrene, p. 48

German TV manufacturers recently proposed a "green" TV set made from recyclable plastics, p. 55

Mixed and dirty household plastic wastes can be converted by hydration into a high-quality oil, p. 63

Mixed plastic wastes to produce hydrocarbons, p. 63

BASF Germany recently disclosed their process for recycling polyamide 66, p. 63

Germany is actively pursuing the tertiary recycling route to plastics recycling, p. 71

BASF to build pilot plant for separating mixed shredded plastics based on electrostatics, p. 72

Thyssen Henschel is constructing a facility that will recycle mixed plastic wastes, p. 79

Exxon Chemical and Esso AG studying the feasibility of feeding mixed plastic wastes into their Karlsruhe coker, p. 87

BASF is introducing nylons, ABS, and polystyrene with recycled content, p. 95

Hoechst introduced polypropylene with recycled content, p. 95

The German recycling capacity is closer to 132 million pounds, p. 95

GLASS RECYCLING

Glass container recycling expected to be up in 1991, p. 6

Glass container recycling rate increase 10.7%, p. 28

Ceramic detection equipment will be installed at a Resource Recycling Technologies' MRF, p. 29

Coors plans to use glass bottles with 55% recycled content, p. 38

Reduction of glass breakage during collection can be improved, p. 38

Recycling glass from cathode ray tubes, p. 46

Cullet pricing down but holding, p. 53

Glassphalt roads for Hawaii, p. 93

GLASS CONTAINER RECYCLING—INDUSTRY STRUCTURE

Resource Recycling Technologies sets cullet supply agreement with Owens-Illinois, p. 13

Owens-Brockway phasing out of glass beneficiation, p. 29

A new glass beneficiation plant to go up in Boston, p. 54

GLASS-REINFORCED THERMOPLASTICS RECYCLING

Glass fiber-reinforced polypropylene recycled, p. 5

GOVERNMENT PURCHASING POLICIES

Government purchasing policies worldwide undercut recycling, p. 46

HDPE RECYCLING—NON-FOOD BOTTLES

Botanical Pharmaceutical Co. switches from polystyrene to HDPE, p. 20

Clorox moves ahead to replace virgin HDPE with recycled HDPE, p. 67

ITALY

Reynolds Europe Recycling S.p.A. started new secondary aluminum foundry in Venafro, Italy, p. 47

Italian manufacturer has designed dispensing head to process recycled RRIM, p. 47

A PET recycling plant is expected to start up in early 1993 near Venice, p. 80

Fiat has committed some \$300 million to improve their auto dismantling and recovering techniques, p. 80

LEGISLATION

Bush signs executive order requiring federal recycling, p. 14

160 new recycling laws enacted in 1991, p. 22

Suffolk County moves to reverse plastic packaging ban, p. 28

Aluminum beer cans are under attack in Ontario, p. 52

The effect of purchasing preference laws, p. 62

Massachusetts' voters to decide on packaging recycling law in November, p. 71

States enact 100 more recycling laws, despite recession, p. 94

MEDICAL WASTES

Medical wastes continue to increase, p. 79

MRFs

Resource Recycling Technologies (RRT) expected to become part of JWP, p. 38

The MRF industry is maturing, p. 77

BFI opens first "built-in" recycling center at Mall of America, p. 86

MRF processing costs for recyclables exceed revenues, p. 86

MUNICIPAL SOLID

WASTES—CHARACTERIZATION

Garbage is a growth business, p. 61

NETHERLANDS

Plastic wastes are generated at a rate of 800,000 tonnes (1.76 billion pounds) per year, p. 15

Reko recently doubled its capacity, p. 15

GE Plastics Europe joined Polyziv of Israel in R & D venture to seek applications for polycarbonate scrap, p. 39

Dutch PVC and environment guidance group to recover some 50 million rigid PVC credit cards from public, p. 39

DuPont now accepts clean and uncoated PET film wastes, p. 80

DSM Elastomers and Verdenstein have joined to explore the recycling potential of EPDM, p. 80

NEWSPAPER RECYCLING

Old newspapers make molded fiber for packaging, p. 29

Burger King shifts to paper wraps made from old newspapers, p. 30

OFFICE PAPER RECYCLING

James River closes recycling loop with pulp made from used office paper, p. 46

OIL RECYCLING

Used oil recycled into gasoline, p. 22

PAPERBOARD RECYCLING

Paperboard multi-pack carriers with recycled content, p. 29

Paperboard container recycling gets a boost, p. 54

CVT expands recycling mix to include aseptic packaging, p. 69

Recycling of composite tubes and cores is considered, p. 76

PAPER RECYCLING TECHNOLOGY

The Recoup steam-explosion process to be installed in Black-Clawson Plant, p. 5

Copy paper now available with recycled content, p. 37

PAPER WASTES—MARKETS

Demand for wastes from old newspapers and magazines expected to climb, p. 6

Farm animals walk through the yellow pages, p. 12

Continued growth in paper recovery expected, p. 12

U.S. recycled wastepaper consumption to reach 34 million tons in 1996, p. 76

CA meeting its newsprint recycling laws, p. 92

PET—CURBSIDE COLLECTION

Curbside collection programs for PET triple since 1989, p. 27

Collection programs for PET continue to increase, p. 59

PET—RECYCLED FOOD GRADE

Goodyear finally gets "no-objection" letter for its recycled food-grade PET, p. 4

Pepsi Cola moves into PET bottles with recycled content, p. 19

Shell to take over Goodyear's Repete, p. 36

Seven-Up/RC bottling company of Southern California introduces recycled-content plastic bottles, p. 44

DuPont starts up its PET depolymerization process, p. 59

PET-RECYCLED—MARKETS

Sheet—an up-and-coming market for recycled PET, p. 1

Tall ships sail cloth and recycled plastics, p. 59

Recycled PET sheet is moving in to replace PVC sheet in packaging, p. 74

Geotextiles made from recycled PET, p. 75

Use of recycled PET as an engineering resin grows, p. 83

PET RECYCLING—INDUSTRY STRUCTURE

Hoechst Celanese to become PET bottle recycler, p. 5

Himont launches joint venture for recycling post-consumer plastics, p. 34

Enviroplast starts up its PET and HDPE recycling plant, p. 34

Image carpets expands its PET recycling capacity, p. 51

Hoechst Celanese links up with a Connecticut MRF as a supplier of PET bottle scrap, p. 60

PLASTICS RECYCLING—GENERAL

Recycling rates for plastics continue to increase, p. 3

PET bottles recycling jumps in 1991, p. 42

More than 4,400 communities now recover plastics, p. 42

Plastics industry investing heavily in recycling, p. 90

PLASTICS RECYCLING—INDUSTRY STRUCTURE

Another plant to recycle plastics is under construction by KW Plastics, p. 35

DuPont is selling its plastic bottle recycling facility, p. 41

Plastics recycling—the trend is vertical integration, p. 89

PLASTICS SORTING

Automatic sorting of plastics—new and developing technology, p. 9

Automated sorting of mixed plastics is the current focus, p. 73

PLASTIC WOOD

A new recycler of mixed plastics starts up in CA, p. 34

Advances in the characterization of recycled materials, p. 91

A new plastic wood manufacturer, p. 91

POLYETHYLENE BAG RECYCLING

Plastic bag recycling—the push is on, p. 25

Bag made from 100% post-consumer film wastes appears in Australia, p. 44

Merchandise bags with recycled content, p. 51

POLYETHYLENE FILM RECYCLING

Pallet wrap recycling—target for the grocery industry, p. 57

New European systems for recycling polyethylene film, p. 82

Polyethylene stretch film introduced with recycled content, p. 82

POLYETHYLENE RECYCLING—INDUSTRY STRUCTURE

Quantum opens its recycling plant, p. 11

Union Carbide opens its polyethylene recycling plant, p. 11

Dow joins with a California recycler to promote recycled-content polyethylene, p. 42

Partek Corporation forms new joint venture with a MRF, p. 68

Graham recycling expands its HDPE recycling capacity, p. 75

POLYPROPYLENE RECYCLING

Exxon starts up its polypropylene recycling plant, p. 35

POLYSTYRENE RECYCLING

- Polystyrene recycling moves ahead, p. 17
- Five million pounds per year of post-consumer polystyrene used to make new loose-fill packaging, p. 43
- Polystyrene recycling hits a home run in Comiskey Park, p. 58
- Dow now sells loose-fill polystyrene with post-consumer content, p. 67

PUBLIC ATTITUDES

- Plastics image continues to decline, p. 33
- Gallup survey finds that paper grocery sacks are favored, p. 37

PVC RECYCLING

- Marker packaged in recycled PVC, p. 19
- Turtle Plastics plans to recycle vinyl rafts, p. 59

RECYCLING ADVOCACY GROUPS

- New plastics recycling advocacy group ready for the new year, p. 2
- American Plastics Council—A new name for P3, p. 83

REUSABLE PLASTIC CONTAINERS

- Two more dairies shift to refillable polycarbonate milk bottles, p. 35

SLUDGE RECYCLING

- Paper sludge will be converted to ethanol, p. 85

SOFT DRINK CONTAINER RECYCLING

- Soft drink container recycling jumps ahead, p. 61

SOURCE REDUCTION

- Packagers move ahead in source reduction, p. 49
- Liquid cleaners shift from bottles to pouches, p. 69
- A new plastic package with recycled content that is also source reduced, p. 76

SPAIN

- The provincial government of Andalusia has started up a plant to recycle LLDPE mulching film, p. 88

STEEL CAN RECYCLING

- Now full steel cans are recycled, p. 93
- Steel can recycling rate increases 38 % in 1991, p. 37

SWEDEN

- The Swedish Brewers Association introduced a 1.5 liter generic refillable PET bottle, p. 15

SWITZERLAND

- PolyRecycling AG plans to install a PET recycling plant in Weinfedder, p. 95

TERTIARY PLASTIC RECYCLING

- Tertiary plastics recycling moving ahead, p. 68
- Texaco to test chemical gasification of plastics, p. 85

TIRE RECYCLING

- Tires can be recycled into high-value products, p. 13
- Still another process for recycling scrap tires, p. 38

UNITED KINGDOM

- Alcan expects its aluminum can recycling facility in Warrington to begin full operation by February, p. 8
- Aqua-Pipes Ltd. has opened up a facility for recycling polyolefin bottles, p. 15
- Coca-Cola introduced PET bottle made from post-consumer PET, p. 24
- Major supermarket chain promotes composting of organic wastes, p. 24
- Linpac Plastics starting up facility to recycle polystyrene, p. 56
- 1992 current estimates for plastic bottle recycling in Britain, p. 56
- The British Green Tyre Co. has designed a bicycle tire made from microcellular polyurethane, p. 64
- The aluminum beverage can recycling rate in the UK reached 11 % in 1991 and is expected to hit 15 % in 1992, p. 72
- BMW has opened up their first UK dismantling and recycling auto plant, p. 95
